Intertwined - This is a book about everything. Or, to be precise, it explores how everything is connected from code to culture. We think we're designing software, services, and experiences, but we're not. We are intervening in ecosystems. Until we open our minds, we will forever repeat our mistakes. In this spirited tour of information architecture and systems thinking, Peter Morville connects the dots between authority, Buddhism, classification, synesthesia, quantum entanglement,

and volleyball. In 1974 when Ted Nelson wrote "everything is deeply intertwined," he hoped we might realize the true potential of hypertext and cognition. This book follows naturally from that.

A Woman in the Polar Night - "An epic story, elegantly told and full of mystery." — Maggie Shipstead, author of *Great Circle* A rediscovered classic memoir - the mesmerizingly beautiful account of one woman's year spent living in a remote hut in the Arctic This rediscovered classic memoir tells the incredible tale of a woman defying society's expectations to find freedom and peace in the adventure of a lifetime. In 1934, the painter Christiane Ritter leaves her comfortable life in Austria and travels to the remote Arctic island of Spitsbergen, to spend a year there with her husband. She thinks it will be a relaxing trip, a chance to 'read thick books in the remote quiet and, not least, sleep to my heart's content', but when Christiane arrives she is shocked to realize that they are to live in a tiny ramshackle hut on the shores of a lonely fjord, hundreds of miles from the nearest settlement, battling the elements every day, just to survive. At first, Christiane is horrified by the freezing cold, the bleak landscape the lack of equipment and supplies... But as time passes, after encounters with bears and seals, long treks over the ice and months on end of perpetual night, she finds herself falling in love with the Arctic's harsh, otherworldly beauty, gaining a great sense of inner peace and a new appreciation for the sanctity of life.

The Cambridge History of the Polar Regions - The Cambridge History of the Polar Regions is a landmark collection drawing together the history of the Arctic and Antarctica from the earliest times to the present. Structured as a series of thematic chapters, an international team of scholars offer a range of perspectives from environmental history, the history of science and exploration, cultural history, and the more traditional approaches of political, social, economic, and imperial history. The volume considers the centrality of Indigenous experience and the urgent need to build action in the present on a thorough understanding of the past. Using historical research based on methods ranging from archives and print culture to archaeology and oral histories, these essays provide fresh analyses of the discovery of Antarctica, the disappearance of Sir John Franklin, the fate of the Norse colony in Greenland, the origins of the Antarctic Treaty, and much more. This is an invaluable resource for anyone interested in the history of our planet.

The Polar Bear - A gorgeously illustrated nonfiction book about the polar bear, this is a factually accurate as well as a poetic exploration of polar bear bodies, habits, and habitats. Working in a painterly, expressive way, Jenni Desmond creates landscapes and creatures that are marked by atmosphere and emotion, telling a story about bears that engages the reader's interest in amazing facts as well as their deep sense of wonder. A graduate of the renowned MA program in Children's Book Illustration at the Cambridge School of Art (ARU), Jenni Desmond works from her studio in London, UK. This, her second book for Enchanted Lion, will be followed by one about elephants.

book. It's like a movie in your hand. Penguins waddle in their irresistibly happy way. A walrus lumbers across the snowy landscape. There's a polar bear with her lively cubs. A beluga whale, breaching. A team of sled dogs sprinting directly at the viewer. And the miracle of the Northern Lights, shimmering like a silk rainbow through the star-filled night. National Geographic writer Carol Kaufmann brings the reader along on a voyage to the North and South Poles, and writes a lively and informative essay for each image, including vital statistics for each animal, such as their size, range, habitat, and more.

The World of the Polar Bear - Norbert Rosing has captured the world of the polar bear on film in a way previously unequalled. Some of these visually stunning images have appeared in National Geographic magazine, but the majority have never been published in North America. Full-color throughout.
